HAYES LEAVES FOR TEXAS TO AID IN IMPORTANT FIGHT

Attorney P. H. Hayes, one of the candidates for the republican nomination for superior judge left last night for San Antonio, Texas in the matter of litigation over the estate of General Trevino. Mr. Hayes represents Captain E. O. C. Ord, retired U. S. A. who is acting for his nephew, Gerónimo Ord Trevino a son of General Trevino by his second wife, a sister of Captain Ord and daughter of General E. O. C. Ord. This litigation affects only the "residue" of the estate, that part of it found in the state of Texas and which under the will of General Trevino is to be divided equally among five heirs. This part of the estate is valued at \$100,000, consisting of bank stock, cash, real estate and personal property. The total value of the estate, the greater part of which is in Mexico is \$1,000,000.

Under the will of General Trevino who died at Laredo in 1914, his third wife was given testamentary letters and became testamentary guardian of Gerónimo Ord Trevino about thirty years of age, but an incompetent, as a result of an injury sustained in a railway accident.

In November of 1914 Captain Ord was in Arizona, accompanied by his nephew, and at that time he applied for letters of guardianship of the estate of his nephew in Texas. The letters were granted out of the Pinal county superior court. Later those letters were recognized by the county court of Bexar County, Texas, that is San Antonio, the court having original jurisdiction in probate matters. An appeal was taken by Mrs. Trevino to the district court and that is now to be heard. At the same time the administration of that part of the estate in Texas will be attacked and an accounting will be asked.

The heirs of the estate, beside the widow, a son, José Gerónimo, Gerónimo Ord Trevino, a daughter, there are two granddaughters, the daughter of Count Burghard, residing at Hamburg, Germany. There are also two illegitimate children in Mexico.

General Trevino was for many years governor of the state of Nueva Leon and commander of the northern zone. He was one of the most loved characters in Mexico during the Diaz regime. And after the outbreak of the revolution he retained his position for a long time without taking part in the rebellion.

Mr. Hayes has made several visits to San Antonio in connection with this litigation. On his last visit a year ago last May he narrowly escaped a tragedy which cost the lives of two of the attorneys in the case, one on his side and one on the opposite side. J. D. Walthall and Judge Webb, Mr. Hayes had been invited by Mr. Walthall to be his guest at the Country Club on a certain night. At the same time he received an invitation from Mr. Ferrill, the partner of Mr. Walthall to visit his stock farm near San Antonio. He accepted the latter. That night the club house was destroyed by fire. Beside Judge Webb and Mr. Walthall, three persons lost their lives in the fire.

Captain Ord, though retired, re-entered the service when the American troops were moved to the border and he is now a member of the staff of General Funston. Mr. Hayes regrets very much his enforced absence from the state on the eve of the primaries.

brides gown was of white Georgette crepe and chiffon taffeta exquisitely simple and charming while the groom wore the conventional black. The house was beautifully decorated in pink and white carnations.

Only the immediate relatives of both families and a few intimate friends were present. Among the out of town guests were Mrs. J. W. Goss of Nisland, S. D., sister of the bride; Mr. A. A. Betts of Phoenix, uncle of the groom, Mr. and Mrs. Ed Brewster from Buckeye, Mr. and Mrs. Holly of Kirland, uncle and aunt of the groom; Reverend Northrup and Miss Lillian Foster. Many beautiful gifts were on exhibition as the young couple are very popular and both families prominent in business and social circles. The young couple left on the evening train for the Grand Canyon after a few weeks spent in honeymooning, they will settle down at home in Los Angeles after October 1.

SCIENTISTS TO REMAIN NOW IN GREENLAND

[Republican A. P. Leased Wire] BATTLE HARBOR, Sept. 7.—The Greenland mission schooner George B. Tuck, which went to the relief of the Donald B. McMillan Arctic expedition in July, 1915, has returned here, only Captain H. C. Pickle and the crew are aboard. MacMillan, Dr. E. O. Hovey, who led the relief expedition, and the other scientists of the party having elected to remain for a while in the northern part of Greenland.

The MacMillan party wintered aboard the Chitt in Parker Snow bay east of Etah, and Captain Pickle reports that on July 7, 1916, when the Chitt left North Star bay, Greenland, about 29 miles north of the expedition's winter quarters, all the party were in good health and had an abundance of supplies.

The MacMillan party were joined by Knud Rasmussen, the Danish explorer who had been engaged in that region in mapping out the coast, and it is understood that they will return by way of Denmark.

The Chitt, after four weeks of battling with heavy ice, reached open water at a point about the latitude of Durban Harbor, 49 miles north of Cape Dyer.

Through August, on account of having to contend with ice and fog, southerly head winds prevailed.

The crew seems to be in good shape, notwithstanding the shortage of food and other hardships through which they passed.

THIRTY YEARS OF BLISS SHATTERED

J. F. Hulsey versus J. C. Hulsey. After thirty years of married life, J. F. Hulsey, a blacksmith, yesterday filed suit for divorce, charging his wife mentioned in the complaint as J. C. Hulsey with desertion. The Hulseys were married in Sedona, Indian Territory and have seven children, three having not yet reached their majority. Ursula Elizabeth McNary has also instituted proceedings asking the court to free her from William McNary. McNary without going through the formality of securing a legal separation deserted his wife in 1914 according to her attorney, in seeking a divorce Mrs. McNary asks for the right to resume her maiden name, Ursula Elizabeth List.

TWO RECORDS MADE AT HARTFORD MEET

[Republican A. P. Leased Wire] HARTFORD, Conn., Sept. 7.—Two new world records were made here today when St. Frisco won the classic Charter Oak stake for 2:08 trotters, after six of the most exciting heats of light harness racing ever witnessed at Charter Oak Park. The second heat was declared by the judges a dead heat, the time, 2:07 1/2, displacing the world's record set in 1904 on the Brighton Beach track, New York, when Sweet Marie and Aristo raced a dead heat in 2:08 1/2. The other record established was the fastest six-heat race, the average time for the six heats being 2:07 1/2, against 2:07 1/2-24, set at Lexington, Ky., in 1910, in a race won by Spanish Queen.

All three events were fairly fast and closed, but the Charter Oak event furnished a thrill in every finish. Less than half a head separated St. Frisco and Mabel Trask at the close of each heat. Mabel Trask took the first in smooth style, but in the second they fought it out on even terms from the turn into the stretch to the wire and the judges could not separate them as they passed the stand.

In the third heat Alma Forbes and Laramie Lad set the pace for the first half mile. St. Frisco and Mabel Trask went to the front on the far turn, but St. Frisco's effort to overcome Mabel Trask's slight margin was not sufficient.

In the fourth heat the veteran reingman, Geers, set the pace. Mabel Trask could not reach him before the wire. The fifth heat was a repetition of the fourth only faster. It was only half a second slower than a world's record for a fifth heat, and the sixth also was only half a second behind the world's record time. In the last heat Mabel Trask made a game effort to pass the bay stallion and did show in front, but the burst of speed did not prove effective until just after St. Frisco's head appeared under the wire.

The two-year-old trot was captured by Emma Magowan in straight heats. Pittsburg was the class of the seven starters in the 2:14 trot.

MAN'S BEST FRIEND WELL CARED FOR BY FORCES IN CONFLICT

Horse, wounded by shrapnel, being made ready for operation.

Each country at the front in the European battlefields has its own well-equipped veterinary hospital, and in these "Dobbin" is carefully nursed back to health. At the outset of the war the average age of a horse was six weeks, but now, with added knowledge of the treatment of horses' diseases, and with more attention paid to them, the horse is able to get a longer lease of life—six months. The difference speaks volumes for the work of the organizations which have taken over the care of the horse in the war.
